

our latest fabric obsession

Classic-modern interiors firm Tilton Fenwick has teamed up with textile house Duralee to design a line of fabrics featuring vintage-inspired motifs. The versatile collection includes colorful paisleys, pea-green peacocks, and woven chenilles that would work as well in a dining room as in a nursery.

we ♥ this lifelike blooms

So realistic they could fool a florist! This effortless arrangement of faux white anemones in a glossy black vase is both feminine and sophisticated.
